Legal Contact	contact@wardright.com
Business Contact	405-283-6008 | Mead, Oklahoma, United States

These Terms of Use govern access to and use of https://wardright.com and Wardright-operated public digital resources, including the Atlas, Relay, and Forge Reference Systems. Please read them before using a Wardright public property, submitting demonstration content, or relying on materials published through it.

Important: This policy governs Wardright LLC public web properties and business-facing services only. Federal solicitations, awards, subcontracts, NDAs, statements of work, and other executed agreements control where their terms conflict with this public policy.

Contents

Acceptance • About Wardright LLC • Website Purpose • No Government Affiliation • Permitted Use • Intellectual Property • Security and Prohibited Conduct • Third-Party Links • Business Inquiries • Procurement and Contracting • No Professional Advice • Disclaimers • Limitation of Liability • Indemnification • Export and Legal Compliance • Changes • Governing Law • Contact

1. Acceptance of These Terms

By accessing or using https://wardright.com; atlas.wardright.com; relay.wardright.com; forge.wardright.com; another Wardright-operated public property; downloading public capability materials; submitting an inquiry; or interacting with a Wardright Reference System, you agree to these Terms of Use and the policies incorporated by reference. If you do not agree, do not use the applicable property or system.

2. About Wardright LLC

Wardright LLC is a privately owned limited liability company organized in Wyoming and qualified to do business in Oklahoma. Wardright provides technology, software engineering, data systems, workflow automation, and related technical services for institutional and public-sector requirements.

References to “Wardright,” “we,” “us,” or “our” mean Wardright LLC.

Wardright LLC is based in Mead, Oklahoma, United States. Its Wyoming mailing address is 30 N Gould St, Ste R, Sheridan, WY. Registered Agents Inc serves as Wardright’s registered agent. Wyoming registered office: 30 N Gould St, Ste R, Sheridan, WY 82801. Oklahoma registered office: 9905 S Pennsylvania Ave, Ste A, Oklahoma City, OK 73159.

3. Website Purpose

Wardright public properties support business information, contracting and capability communications, and technical demonstrations. Wardright Reference Systems are public demonstration environments designed to show engineering capabilities through synthetic scenarios, data, documents, workflows, and outputs. They are not customer production systems and do not constitute customer or federal past performance unless Wardright expressly identifies a separate engagement as such.

4. No Government Affiliation

Wardright LLC is a private company. Nothing on this website should be interpreted as stating or implying that Wardright is a government agency, speaks on behalf of the United States, or has received an award, certification, designation, clearance, or approval that is not expressly identified and current.

5. Permitted Use

You may access and use Wardright public properties for lawful informational, evaluation, procurement, teaming, diligence, and demonstration purposes consistent with these Terms and the Acceptable Use Policy. Reference Systems may provide disposable workspaces, simulated transactions, temporary uploads, or generated outputs solely to support the demonstration experience.

6. Intellectual Property and Brand Rights

The website and its original contents, including text, graphics, photographs, visual systems, logos, wordmarks, layout, documents, and other materials, are owned by or licensed to Wardright LLC and are protected by applicable intellectual-property laws. No ownership interest is transferred by website access.

You may not use Wardright names, marks, logos, trade dress, or materials in a manner that falsely implies sponsorship, endorsement, affiliation, government status, or ownership.

7. Security and Prohibited Conduct

You may not gain or attempt unauthorized access; interfere with availability; bypass workspace isolation, rate limits, or access controls; probe or exploit vulnerabilities without written authorization; upload or transmit malware or malicious content; cause unreasonable resource consumption; or use Wardright properties to facilitate unlawful activity. Additional restrictions appear in the Acceptable Use Policy.

8. Third-Party Links and Services

The website may link to independent third-party websites, procurement systems, government resources, or service providers. Links are provided for convenience and do not imply endorsement. Third-party services are governed by their own terms and privacy practices.

9. Business Inquiries and Communications

Information submitted through email, forms, telephone calls, or other business contact methods may be used for legitimate business operations. Public Reference Systems, including Forge, are demonstration environments and are not approved channels for sensitive or restricted information. Do not submit classified information, CUI, export-controlled technical data, source-selection or procurement-sensitive information, credentials, personal information not necessary for the demonstration, customer secrets, proprietary production data, or other confidential or regulated information unless Wardright has expressly authorized a suitable channel and the governing agreement permits it.

10. Procurement and Contracting

Public content and Reference Systems are not offers to enter a government contract and do not modify any solicitation, proposal, award, subcontract, teaming agreement, NDA, statement of work, purchase order, or executed agreement. Contract-specific requirements apply only when incorporated through the relevant instrument. Reference Systems and synthetic demonstration materials are evidence of Wardright-built technical capability; they are not represented as federal or customer past performance unless expressly identified as such.

Representative technical experience is not represented as federal past performance unless expressly identified as such.

11. No Professional Advice

Website materials are informational only and are not legal, tax, accounting, security-certification, procurement, engineering, or other professional advice.

12. Disclaimers

TO THE MAXIMUM EXTENT PERMITTED BY LAW, WARDRIGHT PUBLIC PROPERTIES, REFERENCE SYSTEMS, DEMONSTRATION DATA, GENERATED OUTPUTS, AND PUBLIC MATERIALS ARE PROVIDED “AS IS” AND “AS AVAILABLE.” WARDRIGHT DOES NOT WARRANT THAT THEY WILL BE UNINTERRUPTED, ERROR-FREE, COMPLETE, CURRENT, SECURE AGAINST EVERY THREAT, OR SUITABLE FOR A PARTICULAR PROCUREMENT, OPERATIONAL, SAFETY, SECURITY, OR TECHNICAL DECISION. REFERENCE SYSTEMS MAY RESET, EXPIRE WORKSPACES, REMOVE SUBMISSIONS, OR BE MODIFIED OR WITHDRAWN WITHOUT NOTICE.

13. Limitation of Liability

TO THE MAXIMUM EXTENT PERMITTED BY LAW, WARDRIGHT LLC AND ITS MEMBERS, MANAGERS, EMPLOYEES, CONTRACTORS, AND SERVICE PROVIDERS WILL NOT BE LIABLE FOR INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL, EXEMPLARY, OR PUNITIVE DAMAGES ARISING FROM USE OF THE PUBLIC WEBSITE OR RELIANCE ON PUBLIC WEBSITE MATERIALS.

14. Indemnification

To the extent permitted by law, you agree to indemnify and hold Wardright LLC harmless from claims arising from your unlawful misuse of the website, infringement of another party’s rights, or material violation of these Terms.

15. Export Controls, Sanctions, and Legal Compliance

You may not use the website or Wardright materials in violation of applicable export-control, sanctions, procurement-integrity, anti-bribery, anti-kickback, or other applicable laws.

16. Changes to the Website or These Terms

We may update website content and these Terms as our services, infrastructure, or legal obligations evolve. The current version will be posted on the website with an updated effective or revision date.

17. Governing Law

These Terms are governed by applicable United States federal law and, where state law applies, the laws of the State of Wyoming, without regard to conflict-of-law principles, except where another law or binding contract requires otherwise.

18. Contact

Legal and website inquiries: contact@wardright.com.

Business telephone: 405-283-6008.

Privacy Policy

Wardright LLC Website, Reference Systems, Business Communications, and Public-Sector Engagements

Effective Date	December 25, 2025
Last Revised	October 14, 2026
Website	https://wardright.com
Legal Contact	contact@wardright.com
Business Contact	405-283-6008 | Mead, Oklahoma, United States

This Privacy Policy explains how Wardright LLC may collect, use, disclose, retain, and protect personal information when you visit https://wardright.com, use Wardright-operated public Reference Systems including Atlas, Relay, and Forge, contact us, submit business information, or otherwise interact with public-facing services we operate.

Important: This policy governs Wardright LLC public web properties and business-facing services only. Federal solicitations, awards, subcontracts, NDAs, statements of work, and other executed agreements control where their terms conflict with this public policy.

Contents

Scope • Information We Collect • Sources • How We Use Information • Cloudflare and Website Security • Cookies and Analytics • Business and Procurement Communications • Sensitive and Restricted Information • Disclosure • No Sale • Retention • Security • Incident Response • International Processing • Privacy Rights • Children • External Links • Changes • Contact

1. Scope

This Policy applies to personal information processed in connection with Wardright public websites, Reference Systems, disposable demonstration workspaces, business communications, vendor and teaming inquiries, proposal-related communications, recruiting communications, and other public-facing activities. Contract-specific handling requirements may supersede this Policy where an executed agreement or government requirement applies.

2. Information We May Collect

Information you provide may include your name, business email, telephone number, employer or organization, title, correspondence, meeting requests, capability or vendor information, proposal-related business information, and other content you choose to send.

Website, Reference System, and network data may include IP address, approximate network-derived location, browser or device information, timestamps, request headers, referral pages, security signals, rate-limit information, cookie or session identifiers, and technical events generated through use of a demonstration workspace.

If you submit materials in connection with a business opportunity, we may receive business contact information, qualifications, resumes, capability descriptions, certifications, representations, pricing information, or other records reasonably related to the inquiry.

3. Sources of Personal Information

We may collect information directly from you, automatically from your browser or device, from service providers that operate infrastructure on our behalf, from government or commercial procurement platforms, from public sources where lawful, or from business partners that are authorized to share the information.

4. How We Use Personal Information

We may use personal information to operate and secure Wardright public properties; establish and isolate disposable Reference System workspaces; process demonstration actions and files; respond to inquiries; evaluate business relationships; prepare or administer proposals and communications; maintain records; detect abuse or security incidents; enforce usage limits; comply with law and contractual obligations; and protect Wardright, customers, partners, and other stakeholders.

5. Website Infrastructure, Security, and Cloudflare

Wardright may use Cloudflare or comparable providers for DNS, hosting, content delivery, traffic management, anti-abuse, and security functions. These providers may process IP addresses, request information, security signals, and strictly necessary cookie data to route traffic, detect malicious activity, apply challenges, and protect the website.

6. Cookies and Analytics

Our Cookie Policy describes cookies and similar technologies. We aim to minimize unnecessary tracking. Wardright provides a Your Privacy Choices control in the website footer so visitors can accept optional technologies, reject all but necessary technologies, or save category-specific choices. Optional analytics or functional technologies remain disabled unless the visitor grants the applicable choice where required or supported.

7. Business and Procurement Communications

Business communications may be retained to evaluate opportunities, support proposal development, coordinate performance, document decisions, maintain records, or satisfy legal and contractual obligations. Procurement communications may also be subject to restrictions imposed by the customer, solicitation, award, or applicable law.

8. Sensitive and Restricted Information

Do not send classified information, CUI, export-controlled technical data, source-selection information, procurement-sensitive information, credentials, security keys, tax identifiers, medical information, or other restricted data through ordinary website forms or general email unless Wardright has expressly authorized an appropriate channel and the transmission is permitted by the governing agreement.

9. How We Disclose Information

We may disclose information to hosting, security, email, communications, document, or other service providers acting on our behalf; to professional advisers; to customers, primes, subcontractors, or teaming partners when reasonably necessary for an authorized business purpose; to government authorities when required by law; or in connection with a merger, financing, reorganization, or sale of assets subject to appropriate protections.

10. No Sale of Personal Information

Wardright does not sell personal information for monetary consideration and does not use personal information for cross-context behavioral advertising unless we later disclose such a practice and provide legally required choices.

11. Data Retention

We retain personal information only for as long as reasonably necessary for the purpose collected, including business development, contract administration, security, legal, accounting, tax, records-management, dispute, and compliance purposes. Retention periods may be longer when required by a contract, customer, law, litigation hold, or government recordkeeping requirement.

12. Data Security

We use administrative, technical, and organizational measures designed to protect information appropriate to its nature and our role. Measures may include access controls, least-privilege practices, encryption in transit where supported, provider security features, logging, monitoring, software updates, and incident-response procedures. No system can guarantee absolute security.

13. Security Incident Response

If we identify a security incident involving personal information we control, we will investigate, contain, remediate, preserve relevant evidence, and provide legally or contractually required notifications when applicable.

14. International Processing

Wardright is based in the United States. Website and service providers may process information in the United States and other locations where they operate, subject to applicable law and contractual protections.

15. Your Privacy Rights

Depending on applicable law, you may have rights to request access, correction, deletion, portability, restriction, objection, or information about categories of data processed. Requests may be subject to verification, contractual restrictions, records-retention duties, legal exceptions, and security requirements.

To submit a privacy request, contact contact@wardright.com.

16. Children’s Privacy

The Wardright website and business services are not directed to children under 13, and we do not knowingly collect personal information from children under 13 through our public website.

17. External Links

Our website may link to independent third-party websites, including government procurement systems. Their privacy practices are governed by their own policies.

18. Changes to This Policy

We may update this Policy as our operations, providers, contracts, or legal obligations change. The revised version will display an updated effective or revision date.

19. Contact

Privacy and legal requests: contact@wardright.com.

This Cookie Policy explains how Wardright LLC may use cookies and similar technologies on https://wardright.com and Wardright-operated Reference Systems, including Atlas, Relay, and Forge. It should be read together with the Wardright Privacy Policy.

Important: This policy governs Wardright LLC public web properties and business-facing services only. Federal solicitations, awards, subcontracts, NDAs, statements of work, and other executed agreements control where their terms conflict with this public policy.

Contents

What Cookies Are • Why We Use Them • Strictly Necessary Technologies • Analytics • Preferences • Advertising • Cloudflare • Duration • Managing Cookies • Third-Party Sites • Changes • Contact

1. What Cookies Are

Cookies are small text files or data elements stored or accessed by a browser or device. Similar technologies can include local storage, tags, scripts, or other browser-based mechanisms that support website functions, security, preferences, or measurement.

2. Why Wardright May Use Cookies

Wardright may use cookies and similar technologies to operate and secure the website, distinguish legitimate traffic from bots or malicious traffic, support traffic routing and security challenges, remember choices where implemented, understand website performance, and comply with legal or consent requirements. We aim to avoid unnecessary tracking.

3. Strictly Necessary Technologies

Strictly necessary cookies or similar technologies may be required for security, network management, anti-abuse protection, traffic routing, or functions you expressly request. These technologies may operate without an optional cookie preference tool where permitted by law.

4. Analytics and Performance Technologies

Wardright may use limited, privacy-focused analytics to understand aggregate traffic, referral sources, page performance, device categories, and general website reliability. If applicable law requires consent for a non-essential analytics technology, we will seek consent before activating it for affected visitors.

5. Preference and Functional Technologies

Wardright currently uses a cookie and local storage to retain Your Privacy Choices for up to 180 days. If other features later allow saved preferences, localization, or accessibility settings, cookies or local storage may be used to retain those choices.

6. Advertising and Cross-Context Tracking

Wardright does not currently describe wardright.com as using cookies for cross-context behavioral advertising. If this changes, we will update this Policy and provide any notice, consent, or opt-out mechanism required by law.

7. Cloudflare and Security Cookies

Cloudflare provides infrastructure that can help protect and deliver the website. Depending on enabled services and security conditions, Cloudflare may set cookies or process request information associated with bot detection, security challenges, traffic filtering, or load balancing.

8. Cookie Duration

Cookies may be session cookies or persistent cookies. Duration depends on purpose and provider. Security cookies may have short lifetimes and may be refreshed when risk signals or challenge conditions change. The preference record used by Your Privacy Choices may be retained for up to 180 days unless you change your choices, clear browser storage, or your browser removes it sooner.

9. Managing Cookies

Most browsers allow you to view, delete, block, or limit cookies. Blocking all cookies may affect website security or functionality. Wardright also provides a Your Privacy Choices control in the website footer. You may use it to accept optional technologies, reject all but necessary technologies, save category-specific choices, and reopen or change those choices later. Strictly necessary technologies remain active because they are required for security, network delivery, or functions you expressly request.

10. Third-Party Websites

This Policy applies to Wardright web properties that expressly link to it. Independent government portals, procurement systems, provider dashboards, social platforms, and other external services control their own cookies and tracking practices.

11. Changes to This Cookie Policy

We may update this Policy when website features, infrastructure providers, analytics practices, or legal requirements change.

12. Contact

Questions about cookies or privacy: contact@wardright.com.

Website: https://wardright.com.

Business telephone: 405-283-6008.

Acceptable Use Policy

Rules for Responsible Use of Wardright Public Digital Resources

Effective Date	December 25, 2025
Last Revised	October 14, 2026
Website	https://wardright.com
Legal Contact	contact@wardright.com
Business Contact	405-283-6008 | Mead, Oklahoma, United States

This Acceptable Use Policy (“AUP”) governs use of Wardright LLC public websites, Reference Systems (including Atlas, Relay, and Forge), demonstration workspaces, APIs, forms, upload interfaces, and other public-facing technical resources. It supplements the Terms of Use.

Important: This policy governs Wardright LLC public web properties and business-facing services only. Federal solicitations, awards, subcontracts, NDAs, statements of work, and other executed agreements control where their terms conflict with this public policy.

Contents

Scope • Unlawful Use • Unauthorized Access • Malware • Disruption • Automated Access • Fraud and Impersonation • Harassment and Exploitation • Regulated Misuse • Intellectual Property • Privacy and Data • Credentials • Restricted Government Information • Evasion • Reporting • Enforcement • Changes • Contact

1. Scope and Responsibility

This AUP applies whenever you access or use a Wardright public digital resource or use a Wardright resource as part of a workflow involving third-party systems. You are responsible for your conduct, content, credentials, configurations, automation, and use of outputs.

2. Unlawful or Rights-Violating Use

You may not use Wardright resources to commit, facilitate, promote, instruct, or conceal unlawful activity; infringe or misappropriate copyright, trademark, trade secret, privacy, publicity, contractual, or other rights; unlawfully obtain or disclose personal or confidential information; or evade lawful restrictions, sanctions, court orders, or regulatory obligations.

3. Security Abuse and Unauthorized Access

You may not probe, scan, exploit, or test vulnerabilities of Wardright systems, Cloudflare configurations, networks, accounts, or infrastructure without explicit written authorization. You may not bypass authentication, defeat rate limits or access controls, intercept traffic without authorization, introduce backdoors, or interfere with security logging.

4. Malware and Harmful Code

You may not use Wardright resources to create, deliver, host, distribute, or facilitate malware, ransomware, destructive payloads, credential stealers, botnets, malicious scripts, exploit kits, or code intended to damage, disrupt, surveil, or gain unauthorized control of systems.

5. Service Disruption and Resource Abuse

You may not intentionally degrade, overload, flood, deny service to, disrupt, or materially impair Wardright resources or related infrastructure, or manipulate traffic and requests to bypass protective controls.

6. Automated Access, Scraping, Bots, and Crawlers

You may not use robots, spiders, scrapers, headless clients, automated request systems, or similar means in a manner that defeats technical directives, bypasses access restrictions, degrades service, or collects restricted information without authorization. Ordinary search-engine indexing allowed by technical controls is permitted.

7. Fraud, Deception, and Impersonation

You may not use Wardright resources for phishing, credential theft, fraudulent transactions, deceptive schemes, false procurement communications, impersonation of Wardright, impersonation of a government official or agency, or misrepresentation of sponsorship, endorsement, award status, or government affiliation.

8. Harassment, Threats, and Exploitation

You may not use Wardright resources to facilitate credible threats, stalking, targeted harassment, doxxing, extortion, trafficking, exploitation, or unlawful abuse.

9. Dangerous and Highly Regulated Misuse

You may not use Wardright resources to facilitate unlawful acquisition, manufacture, trafficking, or deployment of weapons, explosives, controlled substances, or other regulated goods, or to provide operational assistance for violent criminal activity. Lawful professional, compliance, engineering, safety, and public-sector activities remain subject to applicable law and contract requirements.

10. Intellectual Property Abuse

You may not remove or falsify copyright, trademark, attribution, licensing, watermark, provenance, or rights-management information in order to misrepresent ownership or facilitate infringement.

11. Privacy and Personal Data

You may not unlawfully collect, infer, expose, trade, or misuse personal information; circumvent privacy settings; obtain credentials; or create databases of sensitive personal information without lawful authority and appropriate safeguards.

12. Credential and Access-Key Abuse

You may not use credentials, API keys, access tokens, accounts, certificates, licenses, or payment methods without authorization. Do not submit credentials or secret material to public Wardright resources.

13. Restricted Government and Customer Information

Public Demonstration Uploads

Forge and any other public upload-enabled Reference System are demonstration environments. Submit only synthetic, non-sensitive files appropriate to the stated demonstration. Do not use them as storage, malware-analysis sandboxes, production document processors, security-testing targets, or transfer mechanisms for confidential, personal, proprietary, controlled, classified, export-controlled, procurement-sensitive, credential, or regulated information. Wardright may reject, quarantine, limit, or delete submissions and generated artifacts for security, capacity, policy, or maintenance reasons.

Unless Wardright has expressly authorized a suitable channel and the governing agreement allows it, you may not submit classified information, CUI, source-selection information, procurement-sensitive information, export-controlled technical data, customer secrets, security keys, or other restricted government or customer information through public website forms, ordinary email, or unauthorised systems.

14. Attempts to Evade Enforcement

You may not evade account restrictions, IP blocks, security challenges, rate limits, access controls, abuse-detection systems, or other enforcement measures through alternate accounts, proxies, credential rotation, spoofing, automation, or similar techniques.

15. Reporting Security Issues and Abuse

If you identify a vulnerability or suspected abuse involving Wardright infrastructure, contact contact@wardright.com with enough information for us to investigate. Do not publicly expose sensitive details, access data that is not yours, or continue testing beyond what is necessary to demonstrate the issue without authorization.

16. Enforcement

Wardright may investigate suspected violations and may warn, rate-limit, block, suspend, restrict, terminate, preserve relevant records, cooperate with providers or lawful authorities, and pursue legal remedies where appropriate.

17. Changes to This AUP

We may update this AUP as threats, services, infrastructure, contracts, or legal requirements evolve.

18. Contact

Legal, security, or abuse reports: contact@wardright.com.

Business telephone: 405-283-6008.

Website: https://wardright.com.

DMCA & Copyright Policy

Copyright Complaints, Takedown Requests, and Counter-Notices

Effective Date	December 25, 2025
Last Revised	October 14, 2026
Website	https://wardright.com
Legal Contact	contact@wardright.com
Business Contact	405-283-6008 | Mead, Oklahoma, United States

Wardright LLC respects copyright and other intellectual-property rights. This Policy explains how to submit copyright complaints concerning material accessible through websites or services controlled by Wardright and how counter-notices may be handled under the Digital Millennium Copyright Act, 17 U.S.C. § 512.

Important: This policy governs Wardright LLC public web properties and business-facing services only. Federal solicitations, awards, subcontracts, NDAs, statements of work, and other executed agreements control where their terms conflict with this public policy.

Contents

Scope • Good-Faith Notices • Required Elements • Where to Send • Processing • Counter-Notification • Restoration • Repeat Infringers • Misrepresentations • Other IP Complaints • Designated Agent Note • Changes • Contact

1. Scope

This Policy applies to material accessible through a Wardright-controlled website, Reference System, demonstration workspace, or other service for which Wardright can remove or disable access. It does not give Wardright authority over material hosted solely by independent third parties. Temporary demonstration submissions may also be removed under the Terms of Use, Acceptable Use Policy, security controls, workspace expiration, or ordinary maintenance independent of a DMCA request.

2. Good-Faith Copyright Notices

If you believe copyrighted work you own or are authorized to enforce has been infringed through material accessible on a Wardright-controlled service, you may submit a written notice. Before submitting a notice, consider whether the use may be authorized, licensed, in the public domain, or protected by an exception such as fair use.

3. Required Elements of a DMCA Takedown Notice

A copyright notice should include substantially all of the following: (a) a physical or electronic signature of a person authorized to act on behalf of the owner of an exclusive right allegedly infringed; (b) identification of the copyrighted work, or a representative list if multiple works are covered; (c) identification and location of the allegedly infringing material; (d) information reasonably sufficient to contact the complaining party; (e) a statement of good-faith belief that the disputed use is not authorized; and (f) a statement, under penalty of perjury, that the information is accurate and that the submitting party is authorized to act for the rights holder.

4. Where to Send a Copyright Notice

Copyright notices and related inquiries may be sent electronically to contact@wardright.com.

Business telephone: 405-283-6008.

Public business location: Mead, Oklahoma, United States.

Submitting a notice to this address does not itself establish that Wardright qualifies for any particular DMCA safe harbor; statutory eligibility depends on the nature of the service and compliance with applicable requirements.

5. Processing of Notices

Upon receipt of a sufficiently complete notice concerning material we control, we may review the notice, request clarification, remove or disable access to identified material, notify the affected party, preserve relevant records, and take other steps appropriate under the DMCA or applicable law.

6. Counter-Notification

If material you provided was removed or disabled as a result of a DMCA notice and you believe the action resulted from mistake or misidentification, you may submit a counter-notification where the DMCA applies. A qualifying counter-notice should include the elements required by 17 U.S.C. § 512(g), including the required jurisdiction and service-of-process consent statements.

7. Restoration Following a Counter-Notice

Where the DMCA applies and a valid counter-notification is received, Wardright may forward it to the original complaining party and may restore material after the statutory waiting period unless we receive notice that the complaining party has filed an action seeking a court order.

8. Repeat Infringers

Where required for an applicable DMCA safe harbor, Wardright may adopt and reasonably implement a policy for terminating, in appropriate circumstances, users or account holders who are repeat copyright infringers.

9. Misrepresentations and Abuse of the Process

Knowingly materially misrepresenting that material is infringing or that material was removed by mistake may expose a submitting party to damages, costs, or attorneys' fees under 17 U.S.C. § 512(f) or other law.

10. Trademark and Other Intellectual-Property Complaints

The DMCA is a copyright statute and does not establish a takedown procedure for every type of intellectual-property dispute. Trademark, trade-secret, right-of-publicity, impersonation, or other rights complaints may be submitted to the legal contact below with enough information for us to evaluate the issue.

11. Designated Agent Compliance Note

A service provider seeking certain DMCA safe-harbor protections under 17 U.S.C. § 512(c) may be required to publicly post designated-agent information and register and maintain that agent with the U.S. Copyright Office. Wardright will publish any additional designated-agent information required if and when such designation is maintained. This Policy does not represent that every Wardright activity is eligible for Section 512 safe harbor.

12. Changes to This Policy

We may update this Policy to reflect changes in our website, services, contact information, or applicable law.

13. Contact

Copyright and legal inquiries: contact@wardright.com.

Website: https://wardright.com.

Business telephone: 405-283-6008.

Public business location: Mead, Oklahoma, United States.

Accessibility Statement

Effective Date: December 25, 2025

Last Revised: October 14, 2026

Wardright LLC intends wardright.com and Wardright-operated public Reference Systems, including Atlas, Relay, and Forge, together with public-facing digital materials, to be usable by a broad range of visitors, including people who use assistive technologies.

Accessibility approach

We aim to use semantic page structure, keyboard-accessible navigation, readable color contrast, responsive layouts, descriptive alternative text for meaningful images, and support for reduced-motion preferences where motion is present.

PDF documents

Some legal and contracting materials are published as PDF documents. If you need a public Wardright document in an alternative format because of an accessibility barrier, contact us and identify the document and the format that would be useful.

Report an accessibility barrier

If you encounter an accessibility issue on wardright.com, atlas.wardright.com, relay.wardright.com, forge.wardright.com, or another Wardright-operated public digital property, please tell us what page, system, workflow, or document you were using, the barrier you experienced, and - if you wish - the browser, device, or assistive technology involved.

Wardright may revise this statement as the website, documents, or accessibility practices evolve.

Reference Systems Notice

Atlas · Relay · Forge · Public Technical Demonstration Environments

Effective Date	December 25, 2025
Last Revised	October 14, 2026
Website	https://wardright.com
Legal Contact	contact@wardright.com
Business Contact	405-283-6008 | Mead, Oklahoma, United States

Important: This policy governs Wardright LLC public web properties and business-facing services only. Federal solicitations, awards, subcontracts, NDAs, statements of work, and other executed agreements control where their terms conflict with this public policy.

Wardright Reference Systems are public technical demonstration environments built and operated by Wardright LLC. This Notice explains their purpose, provenance, permitted use, data boundaries, and relationship to Wardright contracting materials.

Important: Wardright Reference Systems use synthetic demonstration data and scenarios. They are not customer or federal past performance and are not production systems for operational use.

1. Covered Reference Systems

This Notice applies to Wardright Atlas at atlas.wardright.com, Wardright Relay at relay.wardright.com, Wardright Forge at forge.wardright.com, and future Wardright-operated public systems expressly identified as Reference Systems.

2. Purpose and Provenance

Reference Systems demonstrate Wardright engineering capability through working software, data, geospatial, workflow, integration, document-processing, and operational-system patterns. Scenarios, organizations, records, incidents, assets, documents, readings, events, and outputs presented in these systems are synthetic demonstration material unless expressly stated otherwise.

3. No Past-Performance Representation

A Reference System may be cited as a Wardright-built demonstration of technical capability. Its existence, interface, scenario, data, or output must not be interpreted as identifying a government customer, contract award, subcontract, production deployment, endorsement, or federal or customer past performance. Any actual past performance will be identified separately and accurately in the relevant contracting material.

4. Disposable Workspaces and Availability

Reference Systems may create isolated disposable visitor workspaces through strictly necessary session identifiers. Workspaces, submissions, state, and generated artifacts may expire, reset, be deleted, or become

unavailable. Wardright may change, suspend, rate-limit, or withdraw a Reference System at any time for security, maintenance, capacity, legal, or business reasons.

5. Forge and Demonstration File Uploads

Forge is a document and data processing Reference System. Submit only synthetic, non-sensitive demonstration files of supported types. Do not upload confidential, proprietary, personal, classified, Controlled Unclassified Information (CUI), export-controlled technical data, source-selection or procurement-sensitive information, credentials, customer production data, regulated information, malware, exploit files, weaponized documents, or other malicious or sensitive content.

6. Processing and Outputs

Reference Systems may validate, normalize, extract, transform, route, review, simulate delivery, generate outputs, or maintain demonstration audit records. Outputs are demonstrations and may be incomplete, simplified, synthetic, reset, or intentionally constructed to exercise exception paths. Do not rely on them for operational, safety, security, legal, procurement, engineering, compliance, or production decisions.

7. Security and Acceptable Use

Use is subject to the Wardright Terms of Use and Acceptable Use Policy. Do not bypass workspace isolation, rate limits, access controls, or technical restrictions; conduct unauthorized vulnerability testing; interfere with service; scrape in a manner that defeats controls; or introduce malicious content.

8. Privacy and Temporary Data

Wardright may process network and security data, strictly necessary session identifiers, demonstration workspace state, and - where a Reference System accepts them - temporary submissions and generated artifacts as described in the Privacy Policy and Cookie Policy.

9. Intellectual Property

Wardright names, marks, logos, interfaces, visual systems, software, documentation, demonstration scenarios, and original materials remain owned by or licensed to Wardright LLC except where third-party rights are identified. No ownership interest is transferred by access to a Reference System.

10. Contact
